# MEDHOST Direct®

## Cloud Hosting and Disaster Recovery

**MEDHOST®**

**Over 95% of new customers choose MEDHOST Direct.**

## Security, resiliency, and flexibility

MEDHOST Direct is a cost-effective cloud hosting and disaster recovery solution that alleviates the burden of maintaining IT interfaces and hardware capital expenses while providing the flexibility to grow and adjust with your facility – So you will have more resource availability to focus on delivering superior patient care.

## Why should you consider a cloud-based solution from MEDHOST?

### Cost Savings

MEDHOST Direct provides a predictable, pay-as-you-go service to support the ever-changing compute and storage needs for our hosted customers. Take advantage of our cutting edge cloud-based technologies, and avoid the endless budget cycles for new hardware purchases and extended maintenance agreements to support your EHR.

## Security

Our solution offers industry leading data encryption, anti-virus/malware/ransomware protection, operating systems and network security patching, role-based access, and more to help ensure our customers' systems and data remain secure.

## Resiliency and Disaster Recovery

MEDHOST Direct offers Disaster Recovery solutions that include multi-layered and geo-redundant data centers, fail-over capabilities, ready-to-use data backups, and fast speed to recovery to help protect our customers from ransomware, malware and catastrophic events. We are committed to providing our cloud-based customers a resilient platform they can trust during a disaster event.

## Flexibility

By transferring system administrative responsibilities to MEDHOST Direct, your staff will have more time to devote to the aspects of your business that directly affect the delivery of quality patient care, your bottom line, and responsiveness to customer demands within your organization.
